**(54) Title: AN APPARATUS AND A METHOD FOR GUIDING A TOOL ALONG A PATH ON A SURFACE**

**(57) Abstract:** Tool guiding apparatus for guiding a tool along a path on a surface to be processed, said apparatus comprising at least one path-defining means adapted to be attached to the surface, automatic tool actuating means adapted to advance the tool along the path. Wherein the automatic tool actuation means comprises a flexible force-transferring element comprising a first end and a second end, the first end being attached to the automatic tool actuation means and the second end being attached to the tool.
